PROFESSIONAL SUMMARY

Backend-focused full-stack developer building real-world web applications using JavaScript, Node.js, Express.js, and MongoDB. Experienced in REST API design, MVC architecture, session-based authentication, and scalable database modeling. Strong foundation in Data Structures and Algorithms (DSA), including arrays, linked lists, stacks, queues, trees, binary search trees, recursion, sorting algorithms, and binary search.

TECHNICAL SKILLS

Backend: JavaScript (ES6+), Node.js, Express.js, RESTful API Design, MVC Architecture, Sessions

Database: MongoDB, Aggregation Pipelines, Indexing, Data Modeling

Frontend: HTML5, CSS3, EJS, Handlebars (HBS)

Tools: Git, GitHub, Postman

CS Fundamentals: Data Structures and Algorithms (Arrays, Linked Lists, Stacks, Queues, Trees, BST, Recursion, Sorting, Binary Search)

Learning: AWS Fundamentals, System Design

PROJECTS

E-Commerce Ecosystem | [Live Demo](#) | [Source Code](#)

- Architected a production-ready e-commerce platform using a service-oriented MVC structure.
- Implemented session-based authentication and order state transitions (pending, paid, shipped, returned).
- Developed a dynamic product variant system and inventory management logic to ensure accurate stock handling.
- Integrated Razorpay for secure payment processing.
- Utilized MongoDB aggregation pipelines for advanced product filtering and search.

User Management System | [Source Code](#)

- Developed a centralized admin portal with secure authentication and authorization workflows.
- Built full CRUD functionality for user management.
- Implemented robust server-side form validation.
- Designed a responsive admin dashboard using Handlebars.

ENGINEERING HIGHLIGHTS

- **Performance:** Improved query performance using MongoDB indexing and aggregation pipelines.
- **Architecture:** Structured applications using MVC patterns to separate business logic from presentation.
- **Data Integrity:** Designed inventory systems to preserve consistency during updates.

EDUCATION

Brototype Kochi

2025 – Present

Diploma in Full Stack Web Development (Node.js, Express.js, MongoDB)

Higher Secondary Education (Computer Commerce)

Score: 89%

SSLC

Distinction (8 A+ and 2 A)
